Attempt : 1
Total Mark : 10
Marks Obtained : 10

Section 1 : Coding

1. Problem statement

Manoj, a developer at MoneyMatters Inc., is working on improving the company's financial system. He needs to create a program that takes an integer input, converts it into a double, and displays both the original integer and the converted double value.

Input Format

The input consists of a single integer representing a monetary amount.

Output Format

The first line of the output displays the "Original Integer: ", followed by an integer representation of the input value.

The second line displays the "Converted Double: ", followed by a double value representing the input as a decimal value.

Refer to the sample output for the formatting specifications.

Sample Test Case

Input: 20

Output: Original Integer: 20

Converted Double: 20.0

Answer

```
import java.util.*;
class main{
    public static void main(String args[]){
        int a;
        Scanner obj=new Scanner(System.in);
        a=obj.nextInt();
        float x=(float)a;
        System.out.printf("original Integer: %d",a);
        System.out.printf("\nConverted Double: %.1f",x);

    }
}
```

Status : Correct
